

Building Control Fees 2025/2026

Fees applicable 1st April 2025 -31st March 2026

GENERAL NOTES

THE BUILDING ACT 1984 : THE BUILDING REGULATIONS 2010 (as amended)

The building owner or agent must make a building regulations application and pay a fee for the construction of new works. All work must comply with the 2010 Building Regulations (as amended).

The person carrying out the building works is to liaise with and meet the requirements of the Local Authority Building Control and give the required notice for certain key stages of works.

The charges set out on the following pages have been set in accordance with the Building (Local Authority Charges) Regulations 2010. The tables below give the charges for various categories of work.

Full Plans and Building Notice Application Charges

Fees are set on a 'cost recovery' basis and separate charges are given in the tables below for Building Notice and Full Plans Applications. The fees for Building Notice Applications are slightly higher as this type of application will require a greater input of Surveyor time

Full Plans Applications Charges

For the definition and details of Full Plans applications please visit the Council's website. The full application fee covering both plan checking and site inspections is payable upon submission of the application.

Building Notice Applications Charges

A Building Notice Application will not, in the majority of situations, be accepted for new dwellings. New dwellings may attract additional charges depending on what level of design input has been achieved by the applicant.

In accordance with current legislation, the Building Notice application fee is payable upon submission of the application. Please note that an application will not be validated until the fee is paid in full.

Regularisation Applications (Retrospective Works) Charges

The charge required when depositing an application for regularisation (or reversion) is 100% of the appropriate charge as listed in the following tables excluding VAT, with an additional 50% premium added to it. This type of application is exempt from VAT.

For details of Regularisation Applications please contact Building Control on 01594 812315 or building.control@fdean.gov.uk.

Works to provide access and facilities for disabled persons

Some alterations to buildings to improve facilities for disabled persons are exempt from charges. For details and advice please contact us.
