Other Buildings – not listed above

The growth of the Forest of Dean and its habitations were historically restricted by the Forest’s status as a royal hunting ground. As such all buildings, both industrial and domestic, shown on the 1834-1835 map of the Statutory Forest of Dean should be considered as Non Designated Heritage Assets as they define the historic and cultural development of the settlements through encroachment, local vernacular style of building and way of historic way of life within the Neighbourhood Plan’s Area which together defines the uniqueness of the area. As such the criteria for Aesthetic Merit, Age, Architectural and Archaeological Interest, Group Value, Historic Interest, Integrity, Selectivity and Social or Communal Value can all apply in some measure to such buildings and settlements so recorded.
